## FORCES OF FREDERICK ARE GAINING GROUND

Several Small Successes Have Been Attained by the Austro-Germans in the Carpathians

(By Associated Press.)

While both the Vienna and Berlin war offices announce merely a continuance of the fighting on the Transylvania front between the Austro-German forces and the Rumanians, the Rumanian army headquarters reports that in the Alt river region the troops of King Ferdinand have occupied several positions held by the Teutonic allies. On all the other sectors of this front, according to Bucharest, attacks were repulsed by the Rumanians, except in the Burzen valley, where the Rumanians were compelled to withdraw slightly further south.

Hard fighting is going on from the west of Lutsch, through Galicia to the Carpathian mountains. In Volhynia, despite fierce attacks by both sides, there seemingly is a stalemate. Petrograd reports that neither the Austro-Germans nor the Russians have been able to gain an advantage in Galicia, where battles have taken place along the Tarnopol-Krasne railway, east of Lemberg, and to the north of Stanislaw.

Several small successes for the Austro-Germans have been attained in the Carpathians. The big guns on both sides of the Somme in France

did the greater part of the work yesterday. To the south of the river, however, a small wood between Genemont and Ablaincourt, and 110 prisoners and three guns, fell into the hands of the French. A violent counter attack by the Germans east of Berny-on-Santerre was repulsed by the French.

On the Macedonian front, the entente troops have reached the village of Bursak, eight miles southwest of Domir-Hissar. Along the Cerna river, and north of Nidje mountain, forces of the entente allied troops attacked the Teutons, but were repulsed.

The provisional government of Greece formed on the island of Crete has been formally recognized by the entente powers.

Ultimatum Will Be Delivered Immediately to Various Companies That Are Involved

The crafts prepared an ultimatum outlining their demands which will be presented immediately to the railroads.

The findings of the conference were the result of a recent conference here when the demands of the
